Cash Drawer

The CD330 and CD330S are compact cash drawers offering unparalleled reliability and value. Logic Controls cash drawers come with failure rates one-fifth that of other leading cash drawer vendors according to industry sources. Best of all, these high quality cash drawers are available at prices that drive superior value. The CD330 and CD330S are compact in size, enabling retailers to minimize the amount of counter space required for your Point of Sale system. The deep under-till storage compartment can hold a large volume of coin rolls and media. With heavy duty steel ball bearing rollers and durable powder coat finish you can feel the quality of this top-of-the-line cash drawer.
